Be aware that there are additional combination options than just A, B, C, D and E.

Eg. you can also combine the interior of B and C so that you get a kitchen at one end and a bathroom at the other end. Or, for example C and E where a sauna is combined with a bathroom at the other end.

Use our app "builder" to play more with the combination options. <https://addaroom.dk/builder/>

In the builder app you can also see the prices.
